

26 October 1973

NOTE FOR : DDO Support Chiefs

SUBJECT : Emergency Relocation Procedures

REFERENCE: 

1. The recent DEFCON-3 alert raised several questions concerning what action, if any, is required within the Agency as a result of that action.

2. The current regulations and earlier procedures have been overtaken by events. The Office of Emergency Preparedness has been abolished, and responsibility for emergency procedures for civilians has been assigned to GSA. GSA is now developing new guidelines and we anticipate that they will be circulated shortly. As soon as they are received, they will be forwarded so that you can update the emergency relocation rosters you submitted last January. It appears that the new concept will place much less emphasis on relocation.

STATINTL

Special Support Assistant-DD/M&S
